

the Devil sent forth his demons to mate with humans and create the race of Wicked Jinn. These Jinn are to corrupt mankind using demonic magic in order to harvest their souls in Hell at the End of Time.

“Certain angels in Heaven saw what the Devil was doing and planned to counter this scheme by mating with humans and creating the race of Pleasant Jinn. These Jinn are a counter-measure against the Wicked Jinn and have the goal to thwart their malevolent plans at every corner. But if the Jinn outright battle with their magic powers in front of humans, we would destroy mankind. Neither God nor the Devil wants that to happen; God wants the worship of humans, while the Devil craves humans to be his slaves. Therefore, the Jinn are forced to wage war from the sidelines, using magical creature familiars and human associates to further their plans.”

“The Jinn are like football coaches and us magical spirits and you humans are like the football players,” says Gruffy, attempting to add to my understanding of the nonsense spoken by Amie.
